PRESENTATION - CHEAPER ENERGY BILLS?

With winter just around the corner, and the weakened pound likely to make imported energy more expensive, now would probably be a good time to see if you can save money on your energy bills.

Stephanie Karpetas, a Kent Energy Champion, will be presenting just such advice, plus information about the Big Energy Saving Network*.

Also, if you come early and bring your fuel bills, there may be time for Stephanie to provide advice specific to your circumstances.

** (The Big Energy Saving Network is made up of local community groups and charities across Great Britain that can advise on energy saving in the home, switching energy suppliers, different energy tariffs and available government support to help the most vulnerable get warmer homes and lower fuel bills)*

FIREWORKS

Fireworks can be fun, **if used safely and responsibly!** If you are using fireworks to celebrate Guy Fawkes, or New Year, be sure to be safe and follow the instructions carefully. Bear in mind that it is somewhat anti-social to use fireworks at other times, but if you want to use fireworks at an event (e.g. a birthday party) please notify your neighbours (or invite them!). For information on firework safety please see:
